

## JUDGE MOORE WINS MARATHON

HIS FOUR-IN-HAND COACH FIRST AT OLYMPIA.

Crowd Line Course From Hampton Court and Cheer Winner at International Horse Show to-day. A. G. Vanderbilt Fourth King Receives American Officers.

**LONDON, June 17.**—Judge Moore's team won the coaching marathon at the International Horse Show to-day. A. G. Vanderbilt's entry got fourth prize. Judge Moore's time from Hampton Court to Olympia was 45 minutes 1 second.

The marathon gold challenge cup valued at \$200 and the contest is a very popular event. The teams started from Hampton Court at 2:30 this afternoon and went by way of Twickenham and Richmond and past Ramelagh to Olympia. The trip was made without a stop except for the adjusting of harness. Under the rules of the contest racing is forbidden. The maximum time allowance for the trip is one hour and five minutes.

Despite the unsettled weather there were four hundred competitors. There was a large crowd of spectators nearly all of whom were from the start to Olympia. The popularity of the American competitors was shown by the cheers which greeted them for the entire distance.

Judge Moore in his coach Rockmure carried off the prize. He was followed by Alfred Vanderbilt in his famous Brighton coach. Vanderbilt's team was the keener rival of the American competitors, and this was well understood by the great crowd which packed Olympia to greet the winner at the end and which displayed the most animated interest in the finish.

Judge Moore arrived first at 3:28 and Mr. Vanderbilt last at 3:48. The judging was on the basis of 40 per cent for the horse, 20 per cent for condition and 30 per cent for equipment. The result of the judges' decision was that Judge Moore was placed first and Mr. Vanderbilt got fourth prize, which is worth \$50. This reversed the result last year, when Mr. Vanderbilt won. Judge Moore won today in fine style. His wheelers were particularly cool. The crowd cheered enthusiastically when the cup was awarded to Judge Moore.

Judge Moore's pair, Marquise and Lady Auckland, won first prize in the class for carriage pairs. Walter Winans's Bonny View and Rip were commended in the same class.

In the four-in-hand class for pairs this year Judge Moore's Burgomaster and Robin Hood took first money. In the class for cokers driven by ladies Walter Winans's Rosador took first and Judge Moore's Lord Seaton second.

The show this year has been more successful than ever. Judge Moore says that it beats all others with regard to the attention that has been paid to detail. "Everything counts in securing a verdict," he says, "and it is a distinct improvement from year to year in small points which are practically ignored elsewhere. Great encouragement has been given in the novice classes, which this year are more numerous than ever. It is now more difficult to win a prize at Olympia than it was last year. The officers' charger class had a splendid winner. Adna R. Chaffee of the United States army said: 'The type of horse exhibited here as a charger would be considered a charger at all in the United States. There are chargers here that we actually use in campaigning. Here the officers have developed a special type for parades and the parks rather than a horse for hard campaigning. They look well in the ring but I fear that a horse of that type would not be able to stand much of the wear and tear of actual warfare.'"

Major Foltz has not been discouraged by lack of success of the American officers and hopes for good results in America. "The American," he said, "to learn and we hope to gain knowledge that will enable us eventually to improve the mounts of the officers of the United States army. The officers have been competing for years and we are just beginning to arouse the interest of not only army people in America but of civilians in our horses. We were handicapped because we were new to the surroundings. All of our horses are good jumpers, but here the horses are being on pins and fall with a slight touch. When we reach home we shall bring the subject before the army authorities and with their sanction will begin to prepare immediately for next year's show, adopting a system calculated to overcome difficulties. We are now experienced and now that a start has been made we hope that the authorities will encourage the officers to practice to enter the competitions."

The foreign and colonial cavalry officers who have been giving exhibitions and taking part in the contests at the International Horse Show were received by King George this afternoon in the large State room at Buckingham Palace. There were no set speeches, but his Majesty welcomed his visitors informally. He had a brief conversation with each of the officers and cordially shook hands with them on their departure.

The crowd outside the palace cheered the officers from various countries as they filed in. Most of them came in taxicabs driven from the show.

## RED OF MARIE ANTOINETTE.

Millions Paid for Relic of the Luckless Queen at Paris Sale.

**PARIS, June 17.**—A carved wood bed, and a bed screen which were made for Marie Antoinette at Versailles were offered at auction on June 2 at a reserve price of 100,000 francs, or \$200,000. There were 100 bidders and the articles were put up at 100,000 francs. They were bought in for 100,000 francs. They are the property of the Marquis de Caumont, who was found there in a congerie's room when they were very cheap.

## BUS THE BURKE'S ASSETS.

Banks Take Over Whole Business of Bankrupt London Concern.

**LONDON, June 17.**—The receiver of the Bank of London, which failed two weeks ago, and a court order today allowing the London City and Westminster Bank to take over the business and other assets of the bankrupt concern. The latter was a building and building association.

## REPUBLIC PROCLAIMED.

Portuguese Republic Declared. The Republic of the Braganza Dynasty Proclaimed.

**LISBON, June 17.**—An edict formally proclaimed the republic and declaring the restoration of the Braganza dynasty was promulgated to-day.

## BIG SUFFRAGETTE PARADE.

Picturesque Show Wins Favor From Crowd—40 Americans in Line.

**LONDON, June 17.**—The coronation parade of the suffragettes through the streets of London this afternoon rivalled any pageant that has yet been seen in England. Many American women participated.

Fully 30,000 women marched to stirring music, with flags and banners flying. Most of the women were dressed in white and were decorated with the colors of their various societies. Many carried bouquets, wreaths and festoons of flowers. Mrs. J. Annan Bryce, sister-in-law of the British Ambassador at Washington, headed the procession. She was dressed as Joan of Arc. Behind her marched 100 women representing queens and other notable women in history. Their costumes were wonderfully effective.

Boadicea on a large white horse and Queen Elizabeth in full royal dress were cheered enthusiastically by the crowd along the line of march. There were contingents from various cities in England, from the colonies and from Russia, Germany and France.

There were forty women in the American division, who carried banners bearing the names of famous American women. At their head were Mrs. G. W. Mitchell of Massachusetts and Miss May Winter of Indianapolis on horseback. Miss Inez Millard of New York carried the banner, and Mrs. Lloyd Garrison of Boston, Mrs. Ohensley, Mrs. Caroline Comings and Mrs. J. Davidson of New York and Mrs. A. Martin of Reno, Nev., were among the women who marched in this division.

There were representative actresses, writers, doctors, lawyers and musicians, as well as many women who had served prison terms for the cause, in the long parade, and they were warmly greeted by the friendly crowds.

The demonstration wound up to-night with a meeting at Albert Hall. Mrs. Pankhurst, commenting upon the demonstration, declared that it meant victory. She said that the £100,000 which had been asked for propaganda work had been exceeded.

## LONDON FANCY BALLS.

Pretty One at Botanical Gardens—Twenty Royalties at Shakespeare Event.

**LONDON, June 17.**—Another fancy dress ball on Friday gave society people a chance to wear weird and wonderful costumes. The function was given in the ballroom at the Botanical Gardens.

The illuminations were superb and the ballroom was beautifully decorated. This was the only large public entertainment this week, as the races at Ascot and the horse show at Olympia almost monopolized society's days, while the evenings were given over to private dances and dinners.

The promised presence of twenty royalties at the Shakespeare ball will undoubtedly lend brilliance to the entertainment, but it would seem that as royalty does not pay for its tickets that no royal patronage will be given to the event. Mrs. George Cornwallis West, better known as Lady Randolph Churchill, is one of the most earnest workers for the success of the ball. She has published a letter urging the people not to forget that the real object of the ball is not the personal gratification of frivolous amusement, but the founding of a Shakespeare memorial.

The memorial is to be a national theatre, for a site for which an option has already been taken.

## CANADA FOR PREFERENCE.

But Intends to Trade With the U. S. as Well as England, Says Laurier.

**LONDON, June 17.**—The Right Hon. Arthur J. Balfour, the Unionist leader and former Prime Minister, welcomed the Colonial Premier at a luncheon at the Constitutional Club this afternoon.

Sir Wilfrid Laurier, the Canadian Premier, in replying to the address of Mr. Balfour said that although he was a party man he belonged in England to no party. Canada, he said, had hoisted the British preference flag and it would remain on top independently of what had been done and what had not been done in England. Reciprocity between the United States and Canada, the Premier said, need cause no alarm in this country. Canada wanted to trade with the mother country in preference to others, but did not mean to confine its trade to her alone. He assured his hearers that whatever privileges were granted to other countries would also be granted to England.

## HARVARD MAN'S HUGE TASK.

Prof. Norton Is Writing a History of the German Universities.

**ROME, June 17.**—Dr. Arthur O. Norton, assistant professor of education at Harvard, is writing a history of the German universities and he has come to Italy to consult the libraries, especially in Florence and Padua.

During his work he will have to dip into some twenty thousand books of reference. He is now engaged in research work at Siena, whose archives are the most complete in Italy.

Prof. Norton is on leave of absence from Harvard.

## The Weather.

June 18. A storm of wide extent covering all the country between the Rocky Mountains and the Allegheny Mountains had its centre yesterday over Iowa, moving westward. It was spread pretty much over all the country from Minnesota to Texas and from Colorado east to the south Atlantic coast and in Ohio and the lake regions to western New York, and showers fell in New England. The drought was relieved in nearly all districts. It was warmer in the Southern States and there was a slight rise of temperature in about all of the Atlantic States, and it was cooler in the Northwest except northern Montana. In this city the day was fair and slightly warmer in the afternoon, wind, light to fresh southeasterly, average humidity, 58 per cent, barometer, corrected to read to sea level, at 3 P. M., 29.98, 5 P. M., 29.99.

The temperature yesterday, as recorded by the official thermometer, is shown in the annexed table.
